TEHILLIM LIST POLICY:

Before adding [name] to the Community Tehillim List, please consider the following:

A small group of women, from many sects of the community, read the entire sefer (book) of Tehillim on behalf of the cholim (sick) of our community (TC Jewish community - no affiliations necessary). Requests to add names happen almost daily...sometimes several times a day.

The world has become small - with use of on-line resources, we get requests to add names from all over the globe (after all, our Jewish community, in its totality, is a global one.) We would love to be able to include every name; however, we need to be realistic of what we can accomplish locally. In order to effectively "act locally", we can only manage to recite the names of the community and their family members. As you may know, in the bracha we recite when saying Tehillim, we include a blessing for all the cholim of Israel - *b'toch Israel*. So, with that, we are "thinking globally".

For requests to add names that go beyond the realm of the TC community, we hope that these people have a Tehillim network within their local community to be cared for in this way, *if not* - our community is happy to take them in and personally recite their names among our community names.

After considering the above, please be mindful in requesting to add a name.
